---

## SUMMARY

Experienced Full Stack Web Developer with a focus on problem-solving and a strong foundation in programming principles. Committed to delivering high-quality code and collaborating with cross-functional teams to create efficient and user-friendly web applications.

---

## EXPERIENCE

### Full Stack Web Developer

Null Class

March 2024 - April 2024, remote

- Integrated the following functionalities into the video streaming application:
- Created a feature to show the history of watched videos and liked videos.
- Enhance Security Alerts: Created a system that sends email notifications.
- Content Access Control: Empower creators to control access to their videos.

### Product Intern

Mistry.store

August 2023 - November 2023, Gurugram, Haryana, India

- Designed and implemented a dynamic runtime dataflow algorithm for seamless integration with OpenAI's GPT model using Python and Flask
- Built the logic for a streamlined quotation platform
- Executed pixel-perfect implementation of UI/UX designs into responsive and interactive web applications.

---

## PROJECTS

### Generative Custom Chatbot(PoC)

- I have enhanced custom powers of ChatGPT by training it on the company's proprietary data. In accordance with the company's policy, I can't public the code on GitHub but can present the prototype personally.

### Youtube Clone

<https://mern-frontend-flax.vercel.app/>

- Developed a YouTube clone with features such as viewing and liking history, enhanced security alerts for failed login attempts, and content access control empowering creators to restrict video access and comments to subscribers.

### Hobby Projects

<https://github.com/itsthejayant/>

- Beedle - Social media application, Weather App, Quote generator, Todo List

---

## EDUCATION

### Bachelor of Technology (Computer Science and Engineering)

Maharaja Agrasen Institute Of Technology · 2025 · 9.1 GPA

---

## CERTIFICATIONS

### Master Full stack Web development with node.JS (MERN)

Coding Blocks · 2023

### Master Data Structures and Algorithms using C++

Coding Blocks · 2022

---

## SKILLS

Node.js, React, JavaScript, MongoDB, Express, HTML5, CSS, Python, Redux, C++, DSA, Version control systems (e.g., Git), Responsive design

Communication, Problem-solving, Time management, Adaptability, Teamwork, Creativity
